

Re: Documents of Certification for Arc Welding Electrodes

Following completion of the requirements of the standard, we take pleasure in enclosing one (1) Document(s) of Certification for your electrode(s) as manufactured in Changzhou (Plant 3), China:

JY50-6

Please ensure the labels on these products conform to clause 8 of the CSA W48 Standard. In particular, they should show:

- (a) that certification has been attained. The recommended wording is (for example):
“Certified by CWB to CSA W48”
Only products certified by the Canadian Welding Bureau may be so marked.
- (b) the country of manufacture, as on statement equivalent to “Made in China”

Thank you for your cooperation.

Yours truly,
CANADIAN WELDING BUREAU
